India's diverse challenges at the grassroots continue to be a fertile ground for attracting NGOs. Majority of the NGOs lack scale and this creates a number of challenges for them including attracting donors and volunteers. The issue is further exacerbated with donor discoveries (institutional and retail) moving online. As a result only 9% of donor funds reach smaller NGOs and rural districts. 1NGO's vision is to bridge the digital divide in the social sector. We started by creating websites for NGOs and expanded to social media. We have today more than 770 NGOs on our platform. We extend our gratitude to Dhwani Foundation for supporting us in our efforts. I hope our first e-newsletter will give an insight to our work. Please read, share and give your feedback.

At 1NGO, we firmly believe that NGOs in our society need digital empowerment to reach out to donors. We aim to guide and direct them in the right way so that they can be ahead of the curve. Working with 1NGO

Testimonial of Pragati S

Being my first internship, I was really anxious as how things would progress. 1NGO has been a nurturing platform for me. The work environment turned out to be extremely positive and it was very conducive. This internship helped me improve my writing, communication and management skills. Speaking to unknown persons helped me overcome my fears. Overall experience of interning was really insightful and enriching.

Message from the Operations Manager:

Jashosree Sen, Operations Manager

Being in the social sector for the past 12 years, I have realized that be it an individual or an organization, good networking can help you grow. In the era of digital media, growing one's network has become easy. The NGO sector need to grab this opportunity and thrive or else it will be left behind.

In the last semester, 159 new NGOs from 140 districts and 10 States started their digital journey with us. At 1NGO, we try to inculcate digital literacy and behavioral change among NGOs. Our intention is to prepare NGOs for a digital centric world. This e-newsletter is our attempt to spread the word around. We urge you to read, share and give your feedback so that we can improve as we tread along.
