# 7. <u>Celebration of International Youth Day :</u>

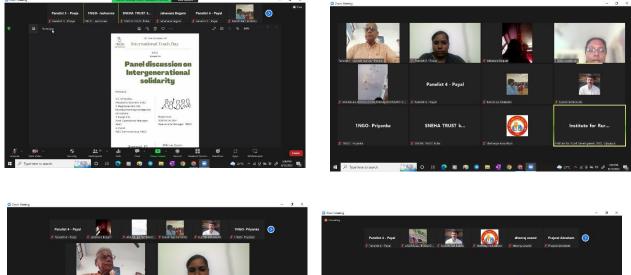

This year, the International Youth Day's theme is "Intergenerational solidarity: creating a world for all ages". the objective of International Youth Day 2022 is to amplify the message

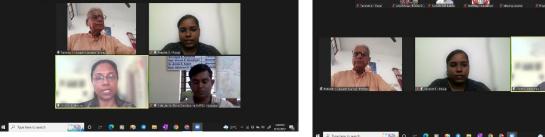

that action is needed across all generations to achieve the Sustainable Development Goals (SDGs) and leave no one behind.

1NGO had organised a webinar with a few representatives from our NGO partners. They represented people from all generations. As the theme indicated, out of 4 participants, 1 was septuagenarian, 1 was quadragenarian and the rest two from Gen Z.

The aim of this theme was to understand what is required to bring solidarity and connect among generations so that they can understand each other better and why the thought processes of each of these generations are naturally varied on a larger scale.

The answer that made these generations stand in union was one, empathy and the second, was technology.

## 8. <u>Case Study:</u>

**Light of Life Trust:** This NGO is located in Virudhunagar district of Tamil Nadu. They focus on children and the elderly. The oragnisation has two

shelter homes dedicated to children and the senior citizens. Though the NGO located in the largest municipality of the district, its work is spread only to a limited population. 1NGO team connected with them and offered to create a website. During the initial stage the NGO was bit hesitant in sharing the data. But with regular connect and discussion they shared information about their NGO. When the website was ready, the team was pleasantly surprised. They were delighted to see a website which gave them a face on the internet. The founder member messaged the 1NGO team with gratitude. He promote his organisation 1NGO's also requested to on social media platform.

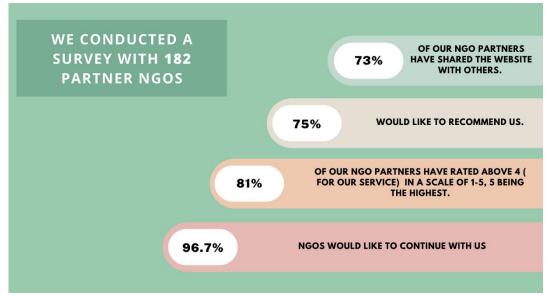

### **Snippets of the Survey**

1NGO team conducted a survey with 182 existing NGO partners in the month of July. The purpose of the survey was to understand how NGOs are using the 1NGO platform and taking their feedback from

them about the services received from 1NGO.

A random sampling method was used to select NGOs from the list of 800 NGOs. A team of 5 members were allocated 36 NGOs each. A questionnaire was developed based on the basis of feedback received earlier from NGOs. The NGOs were asked to give a rating of the services they receive from 1NGO in a scale of 1- 5. Also they were asked whether they would like to continue with the services with us and recommend other NGOs as well.

The outcome of the survey is given in the below picture.

# 10. Way forward:

- 1. Bringing in new resource persons for webinars.
- 2. Launching the FEVOURD-K website.
- 3. Reaching a 1000 mark in creating websites.
