## ABOUT US

### PROFILE

Established in 1994, Shri B D Tatti (Annavaru) Memorial Charitable Trust works for the welfare and development of persons with disabilities in Karnataka. The founders of the Trust began its work by working for children with speech and hearing impairment. Over the years, the Trust rapidly expanded its work and has reached out to about 5000 persons with disabilities, including children, youth and adults in 11 Districts of Karnataka till date.

### KEY PROGRAMS OF THE ORGANIZATIONS ARE:

- Sushravya Pre-Primary School for Oral Deaf Education
- Shri B D Tatti Residential School for the hearing impaired

The Community Based Rehabilitation Programme, that began in 2007-08, has the following programmes:

- Early Intervention and Early Education
- Therapy and Mobility
- People Advocacy and Organization

### BACKGROUND

The prestigious B D Tatti family of Laksmeshwar has been guided by the spirit of dedicating oneself to social service. Shreeman B D Tatti, after whom Shri B D Tatti (Annavaru) Memorial Charitable Trust has been named, lived in the spirit of service all his life. He dedicated his resources and energy for the service of the society. Till his last breath, a dynamic personality, the Maharaja of Mysore and the rulers of Miraj Sansthan would reserve special seats for him in their courts.

Shreeman B D Tatti's grandson, Dr. S. J. Tatti, followed in his footsteps, having inculcated his values and beliefs in every way. After the completion of his medical study, Dr. Tatti, along with some of his friends, committed himself to social service by organizing free eye check up and treatment camps, health check up camps and other such activities for the public, and especially for the low income group.

Dr. Tatti proved that he had inherited the ideals of his grandfather when he established Shri B D Tatti (Annavaru) Memorial Charitable Trust in 1994. The Trust started functioning from 1996. The three families of Shri B D Tatti, the Manvis and Mahajanashettar brothers nurtured the spirit of this Trust, with their action guided by a sense of pure service and commitment. The Trust started a free residential school for hearing impaired children with 10 students in 1996 but now has more than 200 hearing impaired children studying in this organization. Every single day, their lives are being transformed in a unique learning atmosphere, along with residential facilities. At present, the Trust is implementing programmes as part of institutional and community based rehabilitation programmes.

## **Letter by the Managing Trustee – Shri Somanath Mahajanashettar**

**Dear Friends and Well-wishers,**

**Thanks to your support, 2016-2017 was a year of great satisfaction for all of us at Shri B D Tatti (Annavaru) Memorial Charitable Trust. Since the last couple of years, we have put in efforts to increase our networking, with stakeholders, partners, donors and corporate. The interaction helped them to understand our work, and resulted changes in many lives of PWDs in many ways.**

**Our organization won the “Sulakshana Ramjanam Pandey Award” which is organized by National Society For Equal Opportunities for the Handicapped, India.**

**We attended, Through APD, which networks with Azim Premji Foundation for Early Intervention and Early education program in Shirahatti Taluaka ,and we attended Deshpande Foundation Health Partners Meet and have pitch the idea for the social entrepreneurship model . From Gift Abled Foundation we have got funded Rs 21430 for buying of Burning Machine and Sport materials This opportunity came our way through Disability NGO Alliance (DNA) which was formed two years back. We attended the “Workability Asia” an International Conference in the month of August 2016 at Bangalore.**

**The game of Mallakamba, which was started in the year 2014-2015 by the organization is been strengthening. Both boys and girls are doing pole and rope Mallakamba with great skill and enthusiasm.**

**Our future dream is going to start an inclusive school where children with different disabilities along with non disabled children can study under the one roof in our campus. We also want to start a fully equipped “Early Detection and Early Intervention Centre” at Gadag District head-quarter.**

**On behalf of all the staff, I wish to thank to all our well-wishers, supporters, donors, corporate and institution. Your support is the reason for our growth and development, and for improving the lives of people with disability in the region of North Karnataka.**

**With regards,**

**Somanath Mahajanashettar  
Managing Trustee**

## DF HEALTH PARENTS MEET

## INFRASTRUCTURE OF BDT

## PROFILE

- Make Persons with Disability are contributing members of the society through Creating Equal Opportunities

## MISSION

- Inclusion of PWD's in all the spheres of life from families to a larger society
- Facilitating a dis ent and opportunities to them so that they can lead their life with dignity.

- To provide therapy service (physio and speech) to persons with disability
- To create a technology friendly environment to the disabled community

## GIFT ABLED FOUNDATION DONATED

# PART 2

## INSTITUTIONAL BASED PROGRAMMES

### A. 1. SUSHRAVYA PRE-PRIMARY SCHOOL FOR DEAF ABOUT THE PROGRAM ME

Started in 2007-08, the Sushravya Pre Primary School for Deaf (Mother Care Centre) is the only centre in North Karnataka to provide oral deaf language training to hearing impaired children and their mothers. Children with hearing impairment, who are as young as six months to five years old, are enrolled in the school along with their mothers.

In each batch that lasts for three years, the hearing impaired children and their mothers learn the basics of oral deaf language and begin to communicate with each other. The mothers often interact with the children of other women as it not only expands the scope of communication but also improves the overall morale and confidence. The capacities of the mothers as resource persons also get developed in the process.

Apart from the oral deaf language, the children and mothers are also taken to various offices, shops, local events, fairs, functions, and scenic places. The exposure to such places develops the observation power and enriches the understanding in the children about daily life. During this year, the children visited a vessels shop, a tailor shop, and a grocery store. They also visited places of worship of different religions such as dargahs, churches and temples. A visit to the local bakery was of great interest. They were also explained about the construction of a road in the city.

Such exposure visits enthuses the children, and instills a positive energy and confidence in both mother and children.

**Reaction of a mother:** My son was not showing the usual signs of development and speech even at three years of age. A staff member of Shri B D Tatti (Annavaru) Memorial Charitable Trust community based rehabilitation interacts regularly with the Anganwadi worker. They both came to my home after seeing the condition of my son. My son and I joined the Sushravya Pre-Primary school after we learnt about the services here. Now there is great improvement in my son. He interacts and is able to sit properly.

## FACILITIES AND SERVICES AT SUSHRAVYA PRE-PRIMARY SCHOOL

- Residential facilities for mother and child
- Auditory training
- Hearing testing
- Oral deaf education training due to which children are able to talk the important basic words, communicate and understand most of daily use words. These includes names of vegetables, flowers, names of festivals, musical instruments, identify the source of sound during experiments etc.

During this year, a total of children studied in the course. Of them, 12 were boys and 4 were girls. Till date, about 60 children have passed out from Sushravya Pre-primary and mainstreamed in schools.

## VISIT

## **A. 2. SHRI B D TATTI RESIDENTIAL SCHOOL FOR CHILDREN WITH HEARING IMPAIRMENT**

The B D Tatti Residential School for Children with Hearing Impairment is a dream project of Dr. S J Tatti chairman and Somanath Mahajanashettar, Honorary Secretary of Shri B D Tatti (Annavaru) Memorial Charitable Trust. The school has classes from 1st Standard to 10th Standard, and teaches all the subjects. The school is affiliated to Department of Women and Child Welfare, Government of Karnataka. The teachers' training skills are upgraded regularly to improve the teaching methodologies to children with speech and hearing impairment. The school has the Nali Kali method of teaching which is appropriate to teach students, especially those with Hearing Impairment at an early age. Introduced by the Government in SSA (Sarva Shikshana Abhiyan) schools, this method provides space for individual care, and child centric activity based curriculum.

## ACADEMICS

This year, (2016-17) (198) students with hearing impairment studied in BDT Residential School. 24 students appeared for 10th Class exam of which 23 students passed while only one student had been failed. 90 % of the students have passed in their SSLC exams. The student who scored the highest got 76% marks.

## SPORTS

The children are regularly participating in yoga various sports in the campus. At the crack of the dawn, the day begins with the children playing and running on the large field. They also do yogasanas. An intense but quick practice session on the Malkhamba ensures that the expertise of the children is developed day after day. The positive impact of play, sports and yoga is evident as the children are now less immune to illness, have a healthy appetite, and have healthy growth indicators. Mallakamba also helps to build confidence, courage and skill enhancement among children.

Mallakhamba, also known as pole gymnastics, is a traditional Indian sport in which a gymnast performs feats and poses with a vertical wooden pole or rope. Mallakhamba derives from the terms malla which means a wrestler and khamba meaning a pole.

During this year, the children attended the following Mallakhamba events or competitions.

On 18-9-2016 our school students had perform mallakhamba event in Ron Taluk mallapur village.

On 11-9-2016 students have performed mallakhamba in gangavati fair festival.

On 1-10-2016 in Hampi school function our school students had performed mallakhamba

On 12-02-2016 students had performed mallakhamba in lakkundi ustava.

On 23-02-2016 our school students had perform mallakhamba in navachetan education society shigli's school annual day function.

## COMMUNITY BASED REHABILITATION PROGRAMME

### INTRODUCTION

Surveys indicate that the number of children and persons with disabilities are growing in India. This is an issue of concern not just for the individual and the family but also the society and the country. Many a time, the type and extent of disability can either be prevented or reduced but due to lack of information and inadequate medical interventions, the disability is not addressed on time. As a result, persons with disability, especially children, especially those living in the villages, small towns and cities, are unable to get the opportunity and means to improve their condition and life.

### **GOAL OF THE CBR PROGRAM: TO ESTABLISH MAIN EARLY INTERVENTION IN GADAG DISTRICT AND COVER ALL TALUKAS AND PROVIDE SERVICE OVER THERE**

#### **Statement of purpose**

Shri B D Tatti (Annavaru) Memorial Charitable Trust began its community based rehabilitation programmes in Shirahatti Tulaka and Mundargi Taluka of Gadag District, Karnataka from 1996. The need for timely identification of children and persons with disabilities, providing them with the range of services required and expanding the reach of service to direct and indirect beneficiaries was the reason for the organization getting into community based rehabilitation. These programmes provided the scope to involve and engage with various stakeholders, care givers, Government Departments and NGOs in the service of persons with disabilities.

- Early Intervention and Early Education
- Therapy and mobility
- People Advocacy and Organization

### Early Intervention and Early Education Program

Shri B D Tatti (Annavaru) Memorial Charitable Trust strengthened the Early Intervention and Early Education Programme in Laxmeshwar with the support of APPI (Azim Premji Philanthropic Initiatives) in April 2016. APD, which facilitated the support from APPI, is organizing capacity building programmes to the staff working on this programme, while the latter is supporting the field work and mobility aids for the beneficiaries. Covering 92 villages in Shirahatti Taluka, this is a 5 years project reaching out to 300 children end of 2020.

In this program, the staff make visits to homes of children with disabilities or with delayed development indicators, aged from 0 to 6 years. During the visits, the staff engages the children in various activities, and trains them to use the various mobility aids given to them. It also informs the family about various Government schemes for children with disabilities. Accordingly, it supports them in the process of filling applications, organizing the documentation, and in the follow up after submitting applications to different Government Departments. The support includes getting medical certificate, pension for children/persons with disabilities, and enrolling the children in the Government Hospital at Gadag for getting specialized services. The staff also helps the families to get support from the Government's Niramaya Health Insurance Scheme. Niramaya scheme provides affordable Health Insurance to persons with Autism, Cerebral Palsy, Mental Retardation and Multiple Disabilities

Apart from the home visits, the staff also motivates the parents to take their children either to Gadag Hospital for physiotherapy or to the physiotherapy Centre of Shri B D Tatti (Annavaru) Memorial Charitable Trust. Many children have benefitted after undergoing physiotherapy here.

### EARLY INTERVENTION AND EARLY EDUCATION CENTER

# MALLAKAMBA

# YOGA

# ABHA VISIT

## KEY HIGHLIGHTS:

- Opportunities: What are the most significant opportunities and achievements for the programme during the last 6 months? What worked well?

**Good Government Rapport building.**

**Easy Identification and Assessment Process.**

**Home visits are more and effective services providing.**

**Organization Development through APD support.**

**Good interaction from Rashtriya Balya Swasthya Karyakrama (RBSK) team.**

**Baseline Survey was conducted in the month of May-2016 in 27 villages and covered Shirahatti taluka**

**Totally 149 children with delay development identified out of 3700 screening**

**43 Malnutrition children identified.**

**Medical Camp-On 18th, May, 2016 and on 20th December BDT organised medical check up camp for delay development 0 to 15 years children, 52 children were benefited the camp. Dr.Girish –People Tree Hospital and Dr.S J Tatti – Chairman support for the camp.**

**Admission 4 candidate for RCI Course in the year 2016-17.**

**Parents Training – On 27th and 28th organised two days residential parents training at Gulaganjikoppa. The training includes pre-school activities and 38 parents were attended.**

**Early Intervention Training to ASHA worker, Gram panchayath members, Doctor, RBSK Team and parents.**

**Corrective surgery to 5 children**

## ASHA ACADEMEY VISIT

## MUNDARAGI

# AGNAWADI TRAINING

## IMPACT MADE DURING 2016-17

Therapy (physiotherapy and speech therapy) is very important to improve the lives of persons with physical and speech related disability, especially for children. The organization is actively working with health care centres and also visiting the houses of the children with disability in order to provide the required physiotherapy and speech therapy. The parents of the children are coming in regularly as many of them cannot afford private health care. There is an improvement in the condition of the beneficiaries after therapy service.

Similarly, mobility aids play an important role to improve the functionality or mobility of the persons with disability be they children, youth or adults. During this year, various types of mobility aids were given to the persons with disabilities.

## TEAM

**Wheel chair Distribution Camp** On 15th March 2016 we had organized Aids and Appliances Wheel chair Distribution camp at BDT campus. The chief guest was T.P, BD Tatti Hon. secretary Somanath Mahajanashettar,BDT school Administer Shri Badiger BDT staff and 18 childrens,22 parents have attend the program.

## Malnutrition Rally

On 28th 2016 Shri B.D.Tatti(A) Memorial charitable trust had organized a Malnutrition Rally at Mudaragi taluka were 34 parents have involved in this rally were we got a support from volunteers, MSW studends, VR-Ws. The Chief guest for this rally was Mr.Hemagirish Havinal, Dr Kirthi and Mr.Devappa Itagi

## Success Stories – //

### Yallamma Hittalamani , Magadi Village.

Yallamma Hittalamani came to the BDT at the age of three year, she was diagnosed with Developmental Delay. One of our staff had identified her in the time of screening at anganawadi and assessed her as mental development and physical developmental level, but when they assessed she was delay in one year old. She was completely dependent on others for all her needs. She was slow in her movements like sitting, crawling and walking. It was observed that she had no social skills, self care, attention and interest in her activities. Her parents has not aware about medical treatment and physiotherapy. As per the guidance of our staff they came to BDT Early Intervention center weekly twice and our staff visit her home weekly once and provided appliances name motistart at the beginning stage. Now she is using rollater and has developed the activities like feeding, toileting , playing with other children, identifying the parts of body, identifying family members, friends, small things . Now she is speaking clearly and improving her communication skills .She is now participating in group activities, communicating and involving with others in anganawadi center .Her parents are very happy with her improvement in her development and her independency.

## **Future Plans**

The organization plans to start an Early Intervention Programme at the District Level, in the Government Hospital in Gadag. The centre will serve as a strong foundation for early identification, treatment and rehabilitation, helping the younger generation in a significant manner.

## **IN THE NEWS**

### **Acknowledgments:-**

As part of its service to its direct and indirect beneficiaries, Shri B D Tatti (Annavaru) Memorial Charitable Trust is engaged in various activities and programmes. These programmes are relevant due to the following reasons:

- Creating awareness about issues related to disabilities,
- Improving the reach and services for children, youth and adults with disabilities and to strengthening the impact at a larger level by networking with stakeholders, and upgrading the services of the existing service providers.

The activities that the Trust organizes to achieve the above mentioned objectives include sensitization programmes, training or capacity building programmes, sports meets, vocational training programmes, career guidance programme and provision of aids and appliances among others. The Trust is grateful to the support of donors, both individual and institutional, who have reposed their trust in us. Support has come in

Government Departments and their officials, Panchayats of different villages, temple management committees, schools and colleges, Foundations and NGOs to name a few. from Many of them have expressed their support through cash, by sponsoring any aid or appliance or lunch, or donated their space for conducting the activities. It may not be possible to list the numerous ways of support, but the Trust is grateful to each and

every donor. Without their support, the organization would not have been able to conduct many of its activities in an effective manner.
