## PART I : INTRODUCTION TO MARGADARSHI SOCIETY

# Margarashi Society

## 1. Introduction

The society is managed by the Board of Directors with professional zest and concern for Children and is headed by a Chairman and Secretary.

## 2. Problem

Whether we accept it or not “Street children, Unaccompanied Children, Malnourished Children, Missing Children, and Working Children or Child laborers, Child marriage” are a reality and are happening only among weaker sections of our society since they are more vulnerable and easily prone to exploitation, harassment, abuse and diseases. They are seen as untouchables by the public, deprived of love, affection, care and are forced to live in un-hygienic living conditions. In addition, majority of these young children are at risk of addictions due to unavoidable and realistic reasons which they have undergone in their life such as broken families, ill-treatment by parents or family members, company of bad peers, influence of elder or senior street children, to pass time, to forget the past or sad part of their life and to live in a dream world than the existing world.. Margarashi Society®, a non-profit organization is working for these marginalized and neglected children and registered under The Societies Act, came into existence in the year 2002. The society works for the children without any discrimination of caste, creed or color and brings them to the mainstream of the society by providing them with education, and necessary support. The society has been working for the past 16 years in the districts of Kalaburagi, Raichur and Belagavi.

## Aims of Margarashi Society

### 3. Vision

*“Margarashi” envisages a child-friendly and sustained society, “where children are free from all forms of abuse, exploitation, malnutrition, enjoying childhood and their rights, live with respect and dignity and social justice without any discrimination”*

### 4. Mission

*To make Kalaburagi as a model district ensuring child right for children in difficult condition by sensitizing and empowering children, youth, parents, caring community groups and making the civil society, government and allied systems and corporate accountable towards the development of children through promoting alternate care, networking, advocacy and lobbying and right based approach.*

### 5. Objectives:

- To rescue and resettlement of children on the Kalaburagi Railway Platform who are separated from the families
- To enhance the quality of lives of the children seen on railway platforms, (out of homes) through non-formal education, psychological support, and nurture
- Research to understand the complex issues connected with rehabilitation
- Reinforce self-identity, confidence in their abilities, and affection with family to overcome isolation from family, through orientation camps
- Create awareness among the children, public, authorities and other organizations regarding the dangers of trafficking, physical and sexual abuse child marriage and ways of combating and preventing of the same.
- Lobby with Govt. Child Welfare Dept., Education Dept., Police Dept., Railway Authorities and Organization working with the children to protect the child rights and child issues through forming local committees

## 6. Long-term Objectives of Margadarshi Society

The overarching objective of the society is to reunite the children living on the rail platforms with their parents and families with an emphasis on preventing the children, giving no formal training to most vulnerable children once they are resettled, to revert to their homes. Emphasis is also given to preventing of trafficking among children living on their own on the streets.

## 7. Background information on Margadarshi Society

MARGADARSHI is a registered society, working for the most vulnerable children in the society, exclusively working for street children and child labors. The genesis of the organization stems from its vision of helping and enabling those children who are rendered homeless and who live in the most difficult circumstances in their struggle for survival, by factors which are most often, out of their control. The experience of Margadarshi shows that even when the children leave their homes, it is a complex set of underlying factors which are instrumental in their decision to abandon their homes to survive on their own. Though only a few children are orphans neglected rag pickers and vulnerable, in the true sense of the word, all of them ultimately end up living the lives of orphans. Margadarshi started initially covering Kalaburagi and Wadi (Karnataka). The need assessment started with informal visits to the railway platform, bus stand and market contacting the children. Slowly a rapport with the children was established. The children were provided with shelter and food and gradually recreational visits outside the railway platforms such as picnics to nearby places were organized and were introduced to non-formal education. These initial attempts helped the organization to create a climate necessary for the children to open up and divulge the details of their history in terms of where they were from and their reasons for leaving home.

Arthi 15 years old (Father : Prakash, Mother : Sanjana) from Tandur in Rangareddy District, Andhra Pradesh. When Arthi's father died, her mother got married to another man. Arthi was getting beaten by her stepfather and was forced to go to work and earn money. Even when Arthi was unwell, her father used to beat her and her mother also could not help

Arthi went to her elder sister's home and faced the same problem there as well. In this situation, Arthi came to Kalaburagi Railway Station. RCHDK helped Arthi and gave protection by sheltering her in the Govt Girl's hostel (Sarakari Balakiyara Balamandira)

Preethi, 16 year old (and having only a single parent) was being forced by her brothers to go to work and earn money. The brothers used to snatch the money earned by Preethi. One day Preethi did not go to work and was beaten badly by her brothers. She was fed up with her family and came to the Kalaburagi Railway Station to go to Mumbai. RCHDK staff caught her in the Railway Station and rescued her. She was sheltered in the Balakiyara Balamandira

## VII : Margadarshi Society for Urban homeless citizens - Day & Night Shelter Project

(Project sponsored by City Corporation, Kalaburagi)

### April 2019 to March 2020 ANNUAL REPORT

Since 2010, the Kalaburagi City Corporation had started the shelter for the urban homeless citizens at Kalaburagi. Opened Night shelter home with all facilities to provide shelter and food for homeless people during the winter months. Each site offers a warm, safe place to sleep, provides meals(dinner) and then asks the guests to go to their places the following morning. The program is a unique way for people of faith to become directly involved with people who are homeless. The simple goal is to keep homeless people provide safe shelter in the shelter homes and keep away from cold winter nights. A greater goal is to provide a more personal relationship with homeless people, at least for a night, and a deeper understanding of the depth and complexity of the issue.

During the period 2011-2012 season, Margadarshi Society Kalaburagi provided a total of 200 overnight accommodations to 129 people in the program on the following priority basis:

- Women or men with children, Women, Senior Citizens (age 60+) and Men or Men with a disability.

Homeless persons queue up at the back door of the shelter home from 4:00 PM for a carefully formatted intake and registration process. They must show a state-issued identification card, and those do not have identity card are also provided shelter after some questioning after ascertaining their authenticity. Each person's data is entered into our database to help us determine who is using the program and how often.

Writes one grateful neighbor: *"For moments each night, if I am fortunate, I sleep not as homeless in the street, but with warmth and friendship, Margadarshi. Somewhere during the evenings of friendly faces, showers, videos, and jokes, laughs and, I was transformed from homeless to someone with a misfortune. I no longer view the world from ground level, where each may look down on me. I view the world from ground zero, where each may view my launch. "I thank you, all who volunteer for this program. You have given me fortitude, I am sure that I am not alone in this."*

## Rapid Survey

Margadarshi Society conducts Rapid Survey 2 times in a month in the below mentioned 7 places. The objective is to find the homeless citizens and get them to the night shelter by auto. We collect information about these persons and counsel them and find out the reasons for they being away from home. We provide Society Identity Card to these homeless citizens.
