Annual Activity Report for the Year 2019-20

Sri Sai Koti Seva Foundation is a registered voluntary organization in a view to develop through implementing the programs of education, health, environment welfare of aged women and children development. And the issues related to increasing income, improving access to education, health care facilities and training in human resources development, right to education, right based activities with special focus towards equity and lead the life with dignity. The following activities have been done in the field of social, economic, education and community development sector by Trust during the reporting year.

1. Free Food Distribution to Orphans:

Sri Sai Koti Seva Foundation was organized the programme to distribute the milk and fruits to poor. In view of this to serve them with their basic amenities, our organization conducted and covered the entire people with maximum extent and provided with milk and fruits to poor. at the time of Covid 19 pandemic situation in the country.

2. Environment Awareness Campaign Programme:

The slum of segment of people are not having good knowledge about maintenance of environmental sanitation and solid waste due to poor sanitation. The communicable diseases will directly effect on the rural human beings. It was generally found at the drainages and individual toilets are not in produce and rural communities do even not know the proper usage of toilets . Government develops creating sanitation education to rural community but it is not reaching to them, and most of the toilets which are produced by them. Organisation making all sort of efforts for creating awareness regarding this to the women folk. If we, maintain this almost all 80% of sanitation will be maintained and control the diseases like Dengue, Chickengunya which are spreading rapidly. So, the organisation was organized the programme.

3. Vocational Training Programme:

To create more employment opportunities to job seekers, it is just and necessary to provide them pre-qualification for selection based on their qualification and interest. Hence, finding such a candidates in and around the city, we have successfully conducted several programmes by arranging the gathering and in this regard, several interested candidates were benefitted and succeeded.

4. Youth Leadership Development Programme:

Skill and knowledge are the driving forces of economic growth and social development of any country. The economy becomes more productive, innovative and competitive through the existence of more skilled human resources. In this direction, our Trust had conducted the skill developmet training for women, in order to get employm opportunities and income earning opportunities and also for enhancing food security and promoting environmentally sustainable development and livelihoods.

5. Watershed and Rainwater Harvesting Awareness Programme:

The programme was organized to give awareness to general public and particularly the farmers to use water properly and save for the future generation. The rainwater harvesting demonstration was held to educate the farmers. The programme was gained positive achievement in this regard.

6. SHGs and JLGs Formation and Promotion:

The formation of strong and sustainable SHGs was the primary focus of the organization since inception. The initiation of the process has been the starting of the promotion of self help groups. The SHGs provided the reason for the women of the slums to come together for their own benefit. Once the women started coming together for the setting up of the self help group the organization will be getting the space and opportunity to interact with this group on an ongoing basis.

7. Women Empowerment and Capacity Building Programme:

Skill and knowledge are the driving forces of economic growth and social development of any country. The economy becomes more productive, innovative and competitive through the existence of more skilled human resources. In this direction, our Trust had conducted the skill development training for women, in order to get employment opportunities and income earning opportunities and also for enhancing food security and promoting environmentally sustainable development and livelihoods.

8. Health Awareness Programme:

We are happy to mention that all the above children will be mainstreamed children to schools during the academic year. The RBC schools were made available with the teaching aid which was helpful in teaching. The camp for school children had a regular health camp at the center every quarter which helped to the children for diagnosing with the allergies.

Conclusion:

With the achievement for the year with happy, we look forward for a much-enhanced achievement in the coming years. The challenge before us now is not only in tackling mundane issues, but to convince the community members about our plans of strategic implementation at all the working areas. The important area of concern Kaushik's Educational Trust is having the satisfaction of replicating the goals achieved at our new areas.

Thanking You,
