VOICE FOR THE WELFARE OF THE WOMEN & CHILDREN

Dear Friends & well-wishers, my deep sense of joy expressed right over the beginning of the new Fiscal year (2023-24) to serve many more among the target community in Ranipet. You must be aware of the fact that we have a strategy plan document prepared and shared among the supporters till 2025 in 4 special areas of our service to make a definitive output for every tiny input we make. It could be accomplished not only by the monetary support but also through our collaborative works with various stakeholders whose accompaniment values more than money. During our service journey from APRIL to JUNE 2023 we have travelled a lot, met numerous and served the needy in numbers directly and resulted numerous indirectly. Our entire objective is to attain the VICTIMFREE WORLD FOR WOMEN & CHILDREN. Same words I repeat Calling the new collaborators, covering the new boundaries and compiling the activities are no hot cake someone will serve at the women's table. Women, makers of home have to become transformers of the social system and serve the new world for entire universe/multiverse too.
