COVID -19 AWARENESS & RELIEF PROGRAMME:-

Corona virus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus. Most people infected with the virus will experience mild to moderate respiratory illness and recover without requiring special treatment. However, some will become seriously ill and require medical attention. Older people and those with underlying medical conditions like cardiovascular disease, diabetes, chronic respiratory disease, or cancer are more likely to develop serious illness. Anyone can get sick with COVID-19 and become seriously ill or die at any age.

The virus can spread from an infected person's mouth or nose in small liquid particles when they cough, sneeze, speak, sing or breathe. These particles range from larger respiratory droplets to smaller aerosols. It is important to practice respiratory etiquette, for example by coughing into a flexed elbow, and to stay home and self-isolate until you recover if you feel unwell.

Three batches of 150 members were participated in this programme. The object of the programme is to relieve the people from mental stress and depression from pandemic. Experts gave awareness about how to handle this pandemic situation. What are the social responsibilities of the people like wearing masks, how to use the sanitizers, how to improve the immunity using our traditional foods and maintaining social distancing etc.

The participants were advised to follow the government protocols about COVID-19.

FREE SANITIZER AND MASK DISTRIBUTION DURING COVID-19:-

COVID -19 a sensible disease and make the entire world to be paralyzed due to the lockdown in India. But even though the government strictly restrict the people to come out, every people need to survive to buy basic food items from outside. To buy the daily vegetables and provision people roamed in the city. At that duration people needed to wear the mask and gloves to protect themselves from corona virus. Most of the people were unaware about the importance of wearing masks and using sanitizer. The trust took this as a social responsibility to educate and made them aware in wearing the mask and using the sanitizer.

Nearly 500 gloves and sanitizer was distributed to the rural people and create the awareness in the field about COVID-19. Road show was done to understand the necessity wearing mask and gloves. The usage of sanitizer demo was done by the Trust. How to use in the hand? Various cleaning techniques were taught to the people.

of

The mask and sanitizer were distributed freely to people who can't buy the products. The awareness was created in the rural area about the necessity of Mask and Sanitizer.

FREE FOOD AND CLOTH ISSUED TO POOR DURING COVID-19:-

Corona waves made the people exhausted their savings due to three months complete lockdown and two months partial lockdown. During this time not only poor people even some lower middle class people faced the food security problem. The entire world faced poverty due to unemployment and other health threats. Daily wage employees from the rural were heavily affected due to the lockdown and other external threats.

TRICHIRAPPALLI is the prime district to provide employment to the nearby villages. It is one of the best trading districts in Tamilnadu State. Construction workers, daily wage workers in shops, workers in malls were affected and struggled for food during this period.

The Trust provided food to the poor people and distributed cloths to the village people. Nearly 70 families were benefited through this. We provided provisions to nearly 50 families and provided cooked foods to more than 200 people. The Trust provided food to the frontline government workers also. Kabasura kodineer was also given to the public as well as the frontline worker as immunity booster.

SANITATION AWARENESS PROGRAMME:-

Sanitation is important for all, helping to maintain health and increase life-spans. However, it is especially important for children. Around the world, over 800 children under age five die every day from preventable diarrhea-related diseases caused by lack of access to water,

sanitation and hygiene. In addition, diarrhea causes children to lose their appetites, which can lead to malnourishment. Limited access to sanitation has become such a worldwide problem that 1 in every 4 children suffer from stunted growth. This leads to irreversible physical and cognitive damage. Sanitation is a vital piece of health and development around the world.

Sanitation refers to public health conditions related to clean drinking water and adequate treatment and disposal of human excreta and sewage. Preventing human contact with feces is part of **sanitation**, as is hand washing with soaps. Dirty waste water and excrement must be fully conveyed in sewers to treatment places. In no case, they should spread outside since it will spread infection and disease/ill-health. This is the basic public and private health issue at living, working and any public places. It is our basic right to remain healthy at all places and let us strive for it.

The Trust created awareness in WASHING HANDS and how to avoid the Pandemic during corona period. This programme was conducted as road show along with doctors and provided homeo medicine to prevent corona.

YOGA TRAINING PROGRAMME:-

Yoga offers physical and mental health benefits for people of all ages. And, if you're going through an illness, recovering from surgery or living with a chronic condition, yoga can become an integral part of your treatment and potentially hasten healing.

Benefits of YOGA

- ✓ Yoga improves strength, balance and flexibility. ...
- ✓ Yoga helps with back pain relief. ...
- ✓ Yoga can ease arthritis symptoms. ...
- ✓ Yoga benefits heart health. ...
- ✓ Yoga relaxes you, to help you sleep better. ...
- ✓ Yoga can mean more energy and brighter moods.
- ✓ Yoga helps you manage stress.

This lockdown made every one very stressed due to the economical, physical and mental problem. Yoga not only relief stress but also improve the

physical health for the people. The Trust conducted Yoga training to release the stress and pressure due to the corona lockdown.

Auditor:

Mr. S. Kanagaraj, Chartered Accountant, A – 53, 1st Floor, Park View, Annanagar, Thennur, Tiruchirappalli – 620 017 is appointed as our Auditor.
